PROFILE

Frontend-focused developer with freelance experience building responsive web applications and full-stack projects. Skilled in React, JavaScript, REST API integration, and modern UI development. Currently working in technical support at Megatech in Putalisadak, Kathmandu, supporting users, office IT equipment, networks, and CCTV systems.

CORE SKILLS

Frontend: React, JavaScript (ES6+), TypeScript, Angular, Redux Toolkit, Vite

Backend: Node.js, Express.js, REST APIs, MongoDB

IT Support: Windows, hardware/software troubleshooting, printers

Tools: Git/GitHub, AWS S3, Stripe, PayPal, Khalti, eSewa

UI: Tailwind CSS, ShadCN/Radix UI, styled-components, responsive design

Mobile: Flutter, Dart

Networking: LAN/Wi-Fi, cabling, CCTV, DVR/NVR

PROFESSIONAL EXPERIENCE

Technical Support | Megatech Group Pvt. Ltd. — **Current**
Putalisadak, Kathmandu

- Diagnose and resolve hardware, software, Windows, printer, and office IT equipment issues.
- Install, configure, and maintain computers, laptops, printers, and user accounts.
- Troubleshoot LAN, Wi-Fi, and internet connectivity; support network cabling, termination, and testing.
- Install and troubleshoot CCTV cameras and DVR/NVR systems; assist with updates, backups, and IT asset records.

Freelance Full Stack Developer | Self-employed — **Jan 2024 - Present**
Remote

- Build and maintain client and independent websites and applications, including responsive interfaces and API integrations.
- Handle project setup, configuration, maintenance, and issue resolution; independently maintain Sidha Reporting, a live news website.

Full Stack Developer Intern | 7th Sense Technologies — **4 months**

Built and debugged frontend components under senior developer guidance in a team-based, code-reviewed workflow.

Full Stack Developer Intern | TeakyBench — **1 month**

Assisted with development tasks and functional testing.

Software Development Intern | Hexaware — **1 month**

Gained experience with structured software development practices and team-based delivery.
